Southwest Neighborhood New Newsletter for 2011

Communication is easily overlooked, but the ability to communicate effectively is necessary to carry out the thoughts and visions of an organization to its community. The Southwest Neighborhood Association and other neighborhood association throughout The City of Wichita have seen a decline of attendance in neighborhood associations. We strongly believe that if we don't do everything in our power to effectively communicate the importance of maintaining a strong neighborhood association then we will lose our neighborhoods to CRIME, lose our Parks amenities and our Community Policing Officers to additional City Budget Cuts, and most importantly our Voice as a citizens and as an organization.

The SWNA understands the importance of capturing all venues of communication whether through this newsletter, our website, by email, on Facebook and/ or by going door to door meeting neighbors like yourself. Join our passion to maintain our neighborhoods by attending one of our meeting or connect with us by one of our forms of communications listed below.

Things can be expressed, ideas can be shared, and thoughts can be joined.
